CERTIFIED INTEGRATOR

THE **FIRST** AND **ONLY** STANDARD OF EXCELLENCE FOR HOME TECHNOLOGY COMPANIES

WHY YOU SHOULD **ONLY CONSIDER** AN **HTA CERTIFIED** INTEGRATOR

- Seasoned professionals with proven technical expertise
- Phenomenal, ongoing aftercare service
- Endorsements from manufacturers, local industry peers, and design/build professionals
- Background checks for all new employees
- Proven, strong business performance
- Ability to deliver high-performance enterprise-grade computer networks
- A reputation you can trust

WHAT TO EXPECT FROM AN **HTA CERTIFIED** COMPANY

When you hire someone to enhance your house, the installation firm you choose will have an immense impact on how you live in your home. The Home Technology Association, a non-biased third party organization, has taken the guesswork out of deciding who is trustworthy, who is technically qualified, and which companies have a proven history of taking great care of their clients. When you hire a company that has been evaluated to meet the HTA's stringent, nationwide standards for home theater and audio video installation services, you can rest easy in the knowledge that you will love the new technology in your home.

“HTA certified firms undergo a rigorous background check to ensure they are technically competent, demonstrate solid customer service, and have a positive reputation. Less than 10% of companies will reach this status!”

- Josh Christian,
HTA CEO

James Harris from the TV series **Million Dollar Listing** explains why hiring an **HTA Certified Home Technology Professional** is essential
